

How to measure for a rug

1. To find the length of rug – measure from centre of chest (C) along the side of the horse to (D), an imaginary line dropped down from the base of the tail (B).
2. To find neck size – measure from just in front of the wither in a slight curve to point (C), this gives the half neck measurement. Multiply this by 2 to give the full neck measurement.
3. To find the depth of the rug – measure from the centre of the back (E) to the depth required (F).
4. Another useful measurement is the wither (A) to tail (B) (Continental measurement)

	HH	Normal fit	
	10.2	3'6"	42"
	11.0	3'9"	45"
	11.2	4'0"	48"
	12.0	4'3"	51"
	12.2	4'6"	54"
	13.0	4'9"	57"
	13.2	5'0"	60"
	14.0	5'3"	63"
	14.2	5'6"	66"
	15.0	5'9"	69"
	15.2	6'0"	72"
	16.0	6'3"	75"
	16.2	6'6"	78"
	17.0	6'9"	81"
	17.2	7'0"	84"
	18.0	7'3"	87"
